PROFESSIONAL SUMMARY

Computer Science & Engineering graduate (B.Sc., July 2026) who already ships to production: **five paid client websites and web apps** built, deployed and maintained for real businesses, each with a public URL and public source. Worked in travel operations at a Dhaka agency from March to August 2026, booking air tickets on **Sabre GDS** and handling reservation support in Bangla and English. **One IEEE paper accepted** on deep learning for brain tumour MRI with explainable AI. Seeking a role where accuracy, clear communication and practical engineering all matter.

WORK EXPERIENCE

Travel Operations & Ticketing Assistant

Trip Fly BD, Dhaka | Mar 2026 - Aug 2026

- Issued and managed domestic and international air tickets end to end on **Sabre GDS** - fare display, reservation creation, reissue and booking updates.
- Owned each booking after it was made: itinerary changes, reservation queries and travel documentation, so no customer had to chase their own status.
- Resolved fare and schedule questions by phone, chat and in person in **Bangla and English**, converting enquiries into confirmed bookings.
- Identified that daily attendance was still tracked on paper and **built the Smart Attendance System** unprompted - a role-based web app now in daily use, replacing the manual register.
- Built and maintained the agency's website sections and landing pages in **HTML, CSS and JavaScript**, shipping changes without an outside vendor.

Independent Web Developer (Freelance)

Paid client projects | Project-based, ongoing

- Delivered **five paid client websites and web apps** across travel, real estate, consultancy and trading - every one still live, with a public URL and public source.
- Took each project from requirements to launch as the **sole developer**: design, build, deployment, client handover and ongoing fixes.
- Built mobile-first, responsive, accessible layouts that stay usable on low-end Android devices.
- Structured pages for **SEO** - semantic markup, metadata, structured data, sitemaps - so clients reach customers through organic search.
- Replaced paid form services with a **Google Apps Script and Google Sheets** lead-capture backend, giving clients reliable enquiry handling at zero running cost.

PUBLICATIONS

- **TumorMultiNet: A Statistically Validated Hybrid Deep Learning Framework for Brain Tumor MRI Classification and Segmentation on BRISC2025 with Explainable AI** - IEEE, accepted.
- **Smart IoT First Aid Box** - in preparation.

SELECTED PROJECTS

- **Trip Fly BD - Travel Agency Website** - HTML, CSS, JavaScript, SEO - www.tripflybd.com
- **Midtown Aabashon Ltd - Real Estate** - Responsive UI, performance - midtownaabashonltd.com
- **Smart Attendance System - Trip Fly BD** - JavaScript web app, role-based sign-in - omaar-x.github.io/Tripfly-Smart-Attendance-System
- **Rover Consultancy** - Business site, responsive UI - www.roverconsultancy.com
- **FMZ Trading Website** - HTML, CSS, GitHub Pages - omaar-x.github.io/FMZ-Trading-Website-Main

EDUCATION

B.Sc. in Computer Science & Engineering - Bangladesh University of Business and Technology (BUBT), Dhaka - completed July 2026. CGPA 3.24 / 4.00; English medium of instruction, transcripts on request.

Higher Secondary Certificate (Science) - Kharrah Adarsha Degree Honours College, 2021 - GPA 4.58 / 5.00.

SKILLS

Travel systems: Sabre GDS, air ticket booking, reservation handling, itinerary support, fare display

Web development: HTML5, CSS3, JavaScript, responsive and mobile-first UI, accessible layouts, SEO

Programming: JavaScript, Python (production); C, C++, Java (university coursework)

Tools and platforms: Git, GitHub, GitHub Pages, Google Apps Script, Google Sheets, Microsoft Word, Microsoft Excel

Languages: Bangla (native), English (professional working proficiency)

ADDITIONAL

- **BUBT ICPC 2025** and **BIUPC Programming Contest** - participant; **BUBT Innovtex Hackathon** - volunteer. Available immediately; Dhaka, Bangladesh, willing to relocate. Reference: **Dr. Md. Rajibul Islam**, Chairman, Department of Data Science and Engineering, Bangladesh University of Business and Technology (BUBT); contact details on request.
